Re: Laboratory Addition and Renovations to Existing  
Science Center

TO WHOM IT MAY CONCERN:

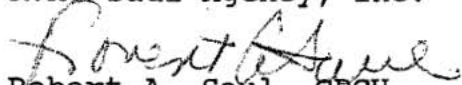

We understand that Raymond & Son, Inc. is being considered for the Construction Management contract for the reference project. We are pleased to highly recommend Raymond for your project.

As their bonding agent for the past two years, we know them to be a very capable firm. For over twenty years, they have demonstrated the ability to estimate, manage and prosecute the work for millions of dollars of commercial, industrial and institutional buildings in Northeastern Pennsylvania. They enjoy an excellent reputation with owners, architects and subcontractors.

If you have any questions, or need additional information, please let us know.

Very truly yours,

R.A. Saul Agency, Inc.

  
Robert A. Saul, CPCU  
President
