TO Whom It May Concern:

At United Cerebral Palsy we were fortunate to have Raymond and Son as Construction Managers on our project which involved turning a warehouse into our Adult program and Administrative Offices.

The project was on the fast track, and without Jerry Raymond's expertise and ingenuity this project would not have been completed on time and within the budget.

We would highly recommend Raymond and Son to anyone who is considering any type of construction project.

Sincerely,

Tim McHugh, Director  
Operations/Purchasing
